How UnifyCloud Fabric Factory Helps You Win

Streamline Engagements

Benefit from ready-to-deploy use cases and automated deployment that accelerates engagement progression, minimizes friction and builds customer relationships.

Accelerate Azure & Fabric Adoption

Automation speeds infrastructure deployment, data onboarding, and AI integration to quickly demonstrate the power, scalability, and seamless integration of Microsoft Fabric.

Unlock Opportunities

UnifyCloud solutions align and integrate with Microsoft motions and incentives, including Azure Migrate & Modernize and Azure Innovate for fast, cost-effective Fabric delivery.

Showcase Azure & Fabric Value

Clearly demonstrate the power, scalability, and seamless integration of Microsoft Azure, Fabric and AI within customer environments faster with less effort.

The Microsoft Fabric Gallery interface displays a grid of cards for different use cases. The cards include titles like 'Migrating on-premises SQL to Microsoft Fabric', 'Optimizing Data Ingestion with Microsoft Fabric', 'Reducing Grocery Waste in Retail Shop', and 'Utilizing Real-Time Healthcare Data in Microsoft Fabric'. Each card includes a small icon, a brief description, and a 'Case Study' button.

Discover the potential of Fabric and AI to improve processes and grow your business with UnifyCloud's **Fabric Factory**. Customers may be eligible for **Microsoft funding** to support some or all of the effort.
