

Transform & Migrate with UnifyCloud

UnifyCloud™

Transform legacy codebases to Azure and AI Apps Quickly with UnifyCloud Intelligent Automation

UnifyCloud's CloudAtlas platform dramatically reduces the time and effort required to modernize legacy applications to Azure. It scans millions of lines of code in minutes, provides detailed options and guidance, and automates code and schema remediation to modernize in days or weeks instead of months. Customers can move to IaaS, PaaS, App Services, containers, AI-enabled architectures and more with confidence, clarity and velocity.

UnifyCloud delivers faster modernization, simplified Azure and AI adoption, and greater integration with Azure services

- Turn legacy systems into intelligent AI experiences with Azure, AI and CloudAtlas
- Quickly adopt and integrate AI by analyzing existing portfolios for AI-enhancement opportunities.
- Unlock new AI scenarios with over 200 use cases for generative AI, agentic AI, copilot agents, and Fabric
- Easily integrate Azure services to embed intelligence into real-world use cases and AI-enabled apps

Benefits of Modernization with UnifyCloud

CloudAtlas automation provides fast and accurate analysis to inform decision-making and speed remediation, and migration to help organizations seamlessly modernize, transform and innovate with Azure and AI.

Simplified Strategy & Planning

Automation eases and accelerates cloud readiness analysis to just minutes for faster decisions and better planning.

Modernization Velocity

Options, guidance, and automated code/schema remediation, reduces modernization effort by up to 80% and speeds time to cloud.

Greater Azure Integration

Generates clear paths to Azure IaaS, PaaS, and AI adoption and integration of Azure and AI services with clear value, TCO and ROI.

Safe, Secure, Compliant Cloud & AI

Security recommendations and key certification and policies support to manage governance, risk and compliance.

UnifyCloud Delivers Azure and AI Innovation

When it comes to modernizing apps and databases, incorporating new AI services, or developing born in AI apps, UnifyCloud can deliver winning solutions and build the foundation for continued cloud and AI innovation.

Apps

Modernize to the cloud, incorporate new AI services or develop born-in-AI™ applications to quickly innovate and transform operations.

Databases

Migrate databases to optimize data management, performance, reliability, and cost-efficiency to make sure data runs effectively at cloud speed.

AI

Simplify and speed processes to deploy generative, agentic, and multi agent AI apps, copilot agents and more in as little as 5 hours.

Fabric

Leverage Fabric's powerful data integration and analytics capabilities to harness deeper business insights for smarter, faster decisions-making.

UnifyCloud is a Cloud Partner You Can Trust
