

Accelerate Innovation with the 1st Agent POC Program for Microsoft Copilot

From Concept to Copilot Agent POC in Hours, Not Months

Organizations must adopt AI to remain competitive, yet many initiatives stall due to development overhead and the complexity of secure integration. The 1st Agent POC Program is a transformative Microsoft-funded program designed help organizations identify and deploy their first functional Copilot agent immediately.

Don't miss your chance to quickly develop your own Copilot agent to build a foundation for AI success

Why Join the 1st Agent POC Program?

The program is designed to deliver a fully functional Copilot agent POC generating immediate operational value while minimizing the traditional risks and costs associated with AI agent solution development.

Fast Delivery & Adoption

Automated agent deployment drastically reduces development timelines and smooths the learning curve.

No Development Burden

Automation avoids the need for and expense of ramping up an internal development team.

Fully Funded by Microsoft

The 1st Agent POC phase is **FREE** for qualified customers, removing the financial barrier to innovation.

130+ Proven Solutions

A vast library of production-ready Copilot agent solutions built on Microsoft Copilot Studio jumpstarts transformation.

A Foundation for Scale

A fully functional Copilot agent to prove technical feasibility and business value acts as a launchpad to scale out a production rollout.

Native Enterprise Security

Your agent lives within your Microsoft 365 tenant, inheriting existing policies and RBAC to ensure secure data governance.

The Path to Innovation: A Phased Engagement Model

The 1st Agent POC follows a structured process to quickly move your organization from initial learning to realizing large-scale business benefits.

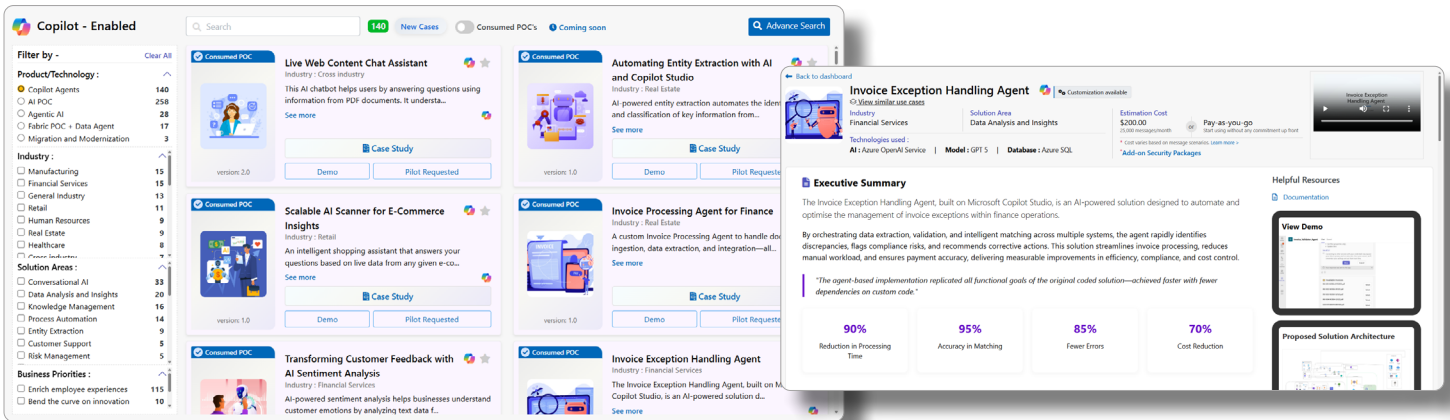

1st Agent POC Scope

Pilot & Production Scope

Fully funded via the 1st Agent POC Program

Separate program(s) with funding available for qualified customers

How to Get Started: The Nomination Process

Entry into the program is managed through a formal qualification and nomination process handled by your Microsoft Account Team.

Qualification Criteria

Eligible customers typically have a minimum of 500 Microsoft 365 seats and are committed to a broader Copilot rollout.

The Path to Approval

Your Microsoft account team will qualify your organization, validate interest in the POC, and process the nomination through the Microsoft portal.

Rapid Kickoff

Once the nomination is approved, the introductory workshop is scheduled in less than a week.
